The 14th International Stirling Engine Conference and Exhibition

Groningen - The Netherlands

Call for Papers

After the excellent meeting organized by Philips in 1993, the International Stirling Engine Conference returns to the Netherlands! The 14th ISEC will be held in Groningen from 16th to 18th November 2009 at the same time as the Energy Delta Convention 2009, an important event attended by a large number of participants from government, science and business from all over the world. The combination of the two events is going to be a great opportunity for opening the Stirling Engine community to important manufacturers and users in the energy field.
